## Introduction

React Front-end Developer with a focus on writing clean, maintainable code that is easy to read and understand. Remote preferred, can work in an office in Tartu, Estonia.

## Experience

### 02/2023 - Present

#### Front-end Developer - First Information Systems, s.r.o.

Currently contributing to the development of a SaaS budgeting application for clients in the construction sector (e.g., ČEZ, SKANSKA). Responsibilities include delivering clean, maintainable code, completing tasks via GitHub, reviewing and submitting pull requests, and actively engaging in team meetings and technical consultations. Focused on Front-End development, with a strong emphasis on implementing new libraries, updating existing ones, and advising on UX/UI enhancements to ensure an optimal user experience.

*Technologies:* Typescript, React, Github, Copilot, SASS, Tailwind, Responsive Web Development, DRY.

### 10/2021 - 01/2023

#### Front-end Developer - Webdevel

Developed Front-End for web applications based on provided wireframes/designs using Vue.js, and partially contributed to Back-End development in Laravel 9. Also gained experience with networking (DNS, hosting), cloud solutions (Azure), version control (Bitbucket, Git), and managing various projects through task management systems such as Trello, JIRA, and Zen.
